EDUCATION

Simon Fraser University
Bachelor of Applied Science, Computer Science
September 2019 -

British Columbia Institute of Technology
Computer Systems Technology Diploma
January 2017 - May 2019

SKILLS

Languages
Java   Python
C++   C#
SQL

Web Development
HTML5
CSS3
JavaScript

Tools/Coursework
Git
Agile Development
Android Development
.NET Core

WORK EXPERIENCE

Agreement Express
Junior Developer Intern
Jan. 2018 - Aug. 2018

· Developed and supported a web-based application with responsive UI, using HTML, CSS, Java, XML, MySQL, JavaScript with JQuery, and Polymer framework
· Worked independently on an agile team to analyze, implement and support new and existing features of the system
· Worked with product and project managers, developers, and testers to meet and complete features

PROJECTS

Logo.com Logo Rating Tool

· Internal application made to rate logo's
· Researched and designed a rating algorithm based off of logo design principals
· Developed with web based technologies

ACL Salesforce Slack bot Integration

· Slack bot for ACL internal users to create helpdesk tickets and connect with support technicians
· Maintained and implemented additional major features for technicians
· Worked on project managment and dev/user/technician documentation
· Technologies used: Python, AWS, Serverless, Salesforce

Fixate

· Android application that uses the pomodoro technique with a unique social aspect that "fixes" you into achieving your task
· Implemented with Java, and using a back-end microservice API hosted on heroku with PostgreSQL
· Learned about the importance planning ahead and putting together an application using RESTful services

Take2

· A web application partnered with Metro Vancouver to reduce food waste by taking two left over ingredients, and suggesting easy to make recipes.
· Built with HTML5, CSS3, JavaScript and BootStrap framework for the front end, and back end built with PHP, JavaScript, and Google Firebase
· Worked as a team using the Agile methodology, Gitflow implementation, A/B testing
· Learned about designing web applications mobile first method,
